WARRANTY TERMS

General Terms:

- Material dispatch and Installation shall be started upon DISCOM approval only.
- For better performance, solar panels should be cleaned by customer two times in a week.
- Concealed wiring shall be done by company, if possible only. Otherwise, customer should do concealed wiring with their wiremen where material shall be provided by Company.
- After successful installation, Customer shall take care of solar plant by doing timely cleaning. If we found less generation at the time of attending complaint due to non-cleaning, we may charge you additional service charge.
- There is manufacturing warranty for all electronics equipment. Company will help to claim this warranty if require.

Government Subsidy:

- **Subsidy Credit:** If applicable, any subsidy will be directly credited to the customer's account. Our company will handle all necessary documentation with the government.
- **Delay Disclaimer:** Please note that subsidy amounts may experience delays from the government's side. Our company is not liable to compensate for any delays or non-receipt of subsidies if not provided by the government.

1. Solar Panel (PV Modules) Performance Warranty:

- 90% of rated capacity for the first 10 years.
- 80% of rated capacity for the next 15 years.
- Total Panel Life: 25 years.
- Refer Solar Panel Datasheet for detailed warranty terms

2. Inverter Manufacturing Defect Warranty:

- 5 years, extendable.
- Refer Inverter Datasheet for detailed warranty terms

3. Balance of System (BOS):

- Equipment/products supplied by us which are warranted against defects due to poor material, design, or workmanship.
- This warranty is valid for 12 months from the date of commissioning or when put into service, whichever is earlier.

4. Operation & Maintenance:

- We offer 5 years of O&M support, including fault finding, remote monitoring, site visits, and assistance with warranty claims for components.
- O&M does not include solar panel cleaning and washing.

Warranty Notes:

- All warranties provided by the manufacturer/supplier are in favor of the buyer and cover the equipment for

the specified period.

- Warranties ensure safe working of individual components and vary in validity period.
- Warranties do not cover damages caused by external hazardous conditions.

Schedule for Site Completion:

- Dispatch within 6 weeks after order confirmation with payment.
- The entire power plant will be installed and commissioned within 60-70 days (approx.) after project accreditation, contract agreement, and possession of the site.

Payment Terms:

- 10% advance payment upon contract signing.
- 50% upon delivery of structure material.
- 30% upon delivery of modules.
- 10% before meter installation is complete.

Quotation Validity:

- 1 week from the date of issue.

Warranty Exclusions:

- The warranty will not cover failures due to:
- Damage or defect caused by transportation, accident, misuse, lack of maintenance, improper usage, or negligence by the owner.
- Wilful damage, normal wear and tear, abuse, or misuse of equipment/product.
- Damage or defect caused by Force Majeure events, including fire, earthquake, flood, or other natural disasters.
- Damage or defect caused by unauthorized alterations, modifications, or conversions.
- Repairs carried out by personnel not authorized by the contractor.
- Defects or damages due to external causes.
- Parts and components repaired or replaced during the warranty period are warranted only for the original warranty period. The contractor will take back replaced or defective material.

Scope of Work For Customer:

- Providing access/approach to rooftop.
- If any electrical modification is required from DISCOM (i.e. ELCB, changeover switch etc.) Customer shall provide necessary support.
- Provide necessary documents for project approvals from State/Central Government .
- Site clearance, ladders, water, and electricity supply for smooth installation and commissioning of the project.
- Customer shall provide Safe Place for Material unloading and storage during the work execution

Testimonials

I recently installed solar on my rooftop. Thank You team for neat and clean Installation on my rooftop. Also, received my subsidy. Great Work team. Thanks

- Rahulbhai patel

When you have empty roof then why to pay for electricity bill? Thank You for end to end guidance. Your staff is very professional and friendly. Thanks for making my roof solarize! Superb Work by Team.

- Payalben hirpara

One of the best decision of my life to go solar! I really appreciate your product quality and workmanship. In last 6 month, my plant has generated more than 2000 Units and counting. I strongly recommend everyone to go solar as soon as possible. Thank You

- Kiranbhai prajapati
